SUMMARY

With around a year of experience in developing web user interfaces using HTML and CSS/SCSS, I have hands-on expertise in JavaScript and TypeScript, particularly in building single-page applications (SPAs) with Vue.js.

I am well-versed in modern development tools like Vite, Git, and CI/CD pipelines, and I maintain code quality using ESLint. My experience also extends to design tools such as Figma and Photoshop, as well as styling frameworks like Tailwind and Vuetify.

Additionally, I have a foundational knowledge of backend development with PHP. I am committed to continuously improving my skills and effectively achieving project objectives.

SKILLS

- **Programming Languages:** JavaScript, TypeScript
- **JS Frameworks:** Vue.js (Vuetify, Vite)
- **Others:** HTML, CSS/SCSS, Tailwind, PHP, Git, ESLint, Figma, Photoshop
- **Languages:** English (upper intermediate), Ukrainian (native)

WORK EXPERIENCE

Clever Land   Zhytomyr, Ukraine
Web Developer & IT Support / Math and Web Programming Tutor   Apr 2023 - Present

- Provided tutoring services in mathematics and web programming to children, enhancing their understanding and skills in these areas.
- Developed and maintained the website for the tutoring center, ensuring it was user-friendly and up-to-date.
- Assisted clients by resolving issues related to the website, such as problems with booking sessions or accessing resources.
- Implemented best practices for web development, ensuring the site was both functional and visually appealing.
- Responded to technical inquiries and provided IT support to ensure smooth operation of the tutoring center's digital services.
